**I recommend Texas Instruments calculators because I am familiar with how they work and can help students use them. Basic calculators I recommend is the TI-36x. This will suffice throughout all science classes. Physics will use the TI 83+ Calculator. If you are not going to be take advanced math and science classes, or use a calculator after physics, I would not invest in a TI 83+ . However, the TI 83+ may be used for all science classes, starting at 7th grade if desired.*
